CLINICAL RESEARCH OPERATIONS SPECIALIST

Clinical Research Professional with 8+ years of experience across Stanford University Department of Medicine, the U.S. Air Force, and a Level I Trauma Center. Skilled in clinical trial operations, regulatory compliance, and audit readiness under ICH GCP and 21 CFR. Experienced in digital health technologies, decentralized trial models, and emergency medicine workflows. Proven ability to drive enrollment, streamline operations, and partner with sponsors and CROs to deliver high-quality, patient-centered outcomes; managed 1,500+ participants across concurrent NIH and industry trials.

CORE COMPETENCIES

Clinical Trial Management | Protocol Compliance | ICH GCP & 21 CFR Adherence | Decentralized & Hybrid Trial Models | Sponsor & CRO Relations | Electronic Data Capture | Patient Recruitment & Retention | Adverse Event Reporting | Emergency & Trauma Medicine | Biomedical Equipment Management | Data Quality & Query Resolution | Budgeting

TECHNICAL SKILLS

Clinical Systems: CTMS – OnCore, Oracle Siebel | EDC – Medidata Rave, REDCap | eTMF | eConsent | ePRO/eCOA | Epic | IRT | Cerner | Safety Reporting – AE/SAE, CTCAE

Data Analytics: SAS | SPSS | R | Python | Excel (Advanced Function) | Smartsheet

Collaboration Tools: Microsoft Office Suite | Teams | Zoom | Slack | Adobe Acrobat Sign | SharePoint | Box | DocuSign | Jira | Confluence | Google Workspace

EXPERIENCE

Clinical Research Coordinator Associate | Stanford University Department of Medicine, Palo Alto CA | Nov 2021 – Feb 2026

- **Executed clinical operations for 1,500+ participants** across concurrent NIH and industry trials (Phase II-IV) in infectious disease, post-acute sequelae of SARS-CoV-2 and chronic diseases. Led recruitment and enrollment operations across multiple trials, consistently ranked among the top enrollment sites nationally.
- **Supported onsite visits** and decentralized/remote workflows (telehealth check-ins, eConsent, ePRO, home IP shipments), ensuring protocol adherence and participant engagement.
- **Ensured regulatory compliance** for multi-site NIH trials; partnered with internal and external stakeholders, including sponsors, CROs, and PIs, to achieve seamless trial execution and audit readiness.
- **Optimized REDCap/OnCore databases** with validation rules, queries, and dashboards; achieved $\geq 90\%$ on-time query resolution.
- **Served as Honest Broker** for Gilead GS-US-685-6819, while ensuring HIPAA-compliant consent, and collaborated directly with Trial Leadership. Involved in budgeting, billing and feasibility management.

Technical Operations Manager (Contract) | International SOS (Iqarus), Fort Lee VA | Aug 2021 – Sep 2021

- **Led biomedical operations** at the first U.S. haven site for Operation Allies Welcome, supporting medical intake and care for 25K+ evacuees from Afghanistan.
- **Designed and implemented high-throughput COVID-19 testing and vaccination protocols** that cut average processing time per patient from 30 to approximately 18 minutes (40% faster).
- **Collaborated with Army Public Health** and interagency partners to ensure rapid benefit enrollment, off-site medical referrals, and 100% compliance with CDC vaccination/screening requirements.

Emergency Department Technician | RCET | Children's Hospital of Orange County, Santa Ana CA | Jan 2018 – Oct 2021

- **Delivered frontline care** in a top-ranked Level I pediatric trauma center, assisting in triage, stabilization, and 20K+ annual emergency encounters.
- **Assisted in code events**, including intubation, resuscitation, medication prep, and patient transport, as an extension of physicians and nurses, contributing to improved patient outcomes in critical situations.
- **Sustained reliability of respiratory care equipment** (CPAP, BiPAP, ventilators, high-flow O₂) through proactive maintenance and troubleshooting, ensuring readiness for critical interventions.

Healthcare Technology Manager | 4A2x5 | USAF, Various Locations | Sep 2017 – Sep 2025, ADT – Reserve

- **Engineered diagnostic and repair solutions** for advanced biomedical systems by integrating electrical, optical, mechanical, pneumatic, hydraulic, and physiological principles, ensuring equipment functionality.
- **Oversaw biomedical ops** for the 752nd Medical Squadron during Global Medic 2019, ensuring full operational readiness of mobile infrastructure in a multinational mass-casualty exercise.
- **Developed cross-disciplinary teams** through training on safe equipment use and preventive maintenance, achieving zero equipment-related incidents.
- **Maintained >98% preventive maintenance compliance** across 200+ biomedical devices valued at \$2M+, ensuring Joint Commission and DoD accreditation readiness.

LICENSES AND CERTIFICATIONS

- Assoc. of Clinical Research Professionals – Project Manager (ACRP-PM) Certified Professional (ACRP-CP)
- Stanford Online AI in Healthcare | Google Advanced Data Analytics | Interprofessional Healthcare Informatics
- AAMI Certified Biomedical Equipment Technician (CBET)
- CITI Good Clinical Practice (GCP) | HIPAA | Aerosol Transmissible Diseases | DOT Shipping
- NREMT Registry No. E3767060 | CPT I Registry No. CPT 02270029 | American Heart Association BLS, ACLS, PALS
- Pre-Hospital Trauma Life Support (PHTLS) | Trauma Combat Casualty Care Level II (TCCC)
